## PROFILE

As a digital artist, I blend design, art, and technology to innovate interactive media. With a focus on refining artistic vision and programming skills, I strive to create impactful, engaging experiences. Committed to pushing the boundaries of digital culture through creative expression.

## SKILLS

- Experience with hardware integration, microcontrollers, sensors, and creating interactive physical objects.
- Skilled in UX/UI design, focused on crafting user-friendly and intuitive interactive systems.
- Strong ability to approach challenges creatively and develop innovative solutions.

## SOFTWARE

- Canvas
- Adobe Creative Suite
- Figma
- Autodesk Maya
- Wordpress

## EXPERIENCE

- **FRONTEND DEVELOPER AND UX/UI DESIGNER  
CODAXIA**

March 2025 – May 2025

Created and optimized vector illustrations aligned with the website's visual identity to strengthen user engagement.

Streamlined asset creation and ensured consistent visual design across digital platforms using modern design tools and workflows.

Enhanced overall UI/UX by integrating custom illustrations that improved clarity, accessibility, and design cohesion.
